

CONFIDENTIAL

Journal - Office of Legislative Counsel
Monday - 29 October 1973

Page 4

25X1 9. [] - JGO) Delivered to Mr. Jack Nugent, House
Republican Research Staff, a copy of "World Oil '71--facts & figures."

25X1 10. [] - JGO) Delivered a copy to Michael Finley, House
Foreign Affairs Committee staff, of "World Oil '71--facts & figures." He
indicated that if the Agency is not republishing this study he may request an
update of the study by the Library of Congress. In the opinion of the Committee
staff, it has been too valuable a research tool to be discontinued at this time
of energy crisis.

25X1 11. [] - JGO) Met with Frank Slatinshek, Chief Counsel,
House Armed Services Committee, who mentioned that Chairman Nedzi had
discussed the effect of Arab cutbacks and embargoes on the American oil
25X1A situation on Friday with [] of this office. It would be appreciated
if the Committee could have a short blind memorandum on the oil figures as
the Agency is presently reporting them.

25X1 12. [] - JGO) Met with Mr. William Hogan, Counsel,
House Armed Services Committee, and received from him several copies
of H. A. S. C. No. 93-25 "Inquiry into the Alleged Involvement of the Central
Intelligence Agency in the Watergate and Ellsberg Matters" together with
one set of the press release for Tuesday, 30 October 1973, at 10 a.m. by
Chairman Hebert and Subcommittee Chairman Nedzi.

25X1 13. [] - JGO) Met with Representative William Bray
(R., Ind.) and discussed with him some features of the House Armed Services
Committee report and press release. Although he emphatically does not
agree with some of the wording used, such as the caption concerning the
Agency being duped by the White House staff, it is his judgment that the
report on balance tends to exonerate the Agency and its people from any
complicity in the "Watergate" affair.
